

Holy Mackerel

Ideas and Instructions

Hello and thanks for downloading my new coloring sheet.

This one is different than the other sheets for two reasons;

1. it's the first one from a book of mine. It's a new book called, you guessed it, "Holy Mackerel".
2. it is the first one with instructions.

"What! Instructions!" I can hear you saying, "That is what I get all day long at school!"

I know, I know and I apologize but I need to explain. You see, the book is about a mackerel with holes in it that you can see through.

Soooo the challenge (idea) for you is not to just do your usual fabulous job coloring the mackerel himself, whose name is Mack by the way, but to add a background that has details that you can see through Mack's holes.

I know you can, I have faith in you.

Now go for it!
